

The Invention Factory

Hello!

We Want To Hear From You!

Thank you for your recent purchase of The Invention Factory's lantern on Amazon.com. We want you to be delighted with your purchase and your shopping experience. If you have any concerns, please contact us and one of our customer service representatives will be happy to assist you. You can contact us by email to support@theinventionfactory.com or by asking us a question, via our Store Front, on amazon.com

BENEFITS AND FEATURES

Here are some cool ways for utilizing your new lantern:

- Great for camping
- Emergency lighting at home during a power outage
- Charge your cell phone during a power outage
- Keep in your car for roadside emergencies
- A great addition to your workshop
- Great for closets without hard-wired lights
- If necessary, keeping your lantern charged by using the crank charger during power outages (and keeping your muscles toned)

LEAVE US A REVIEW

User Instructions and Information

Operation Instructions

Press the button to choose each lighting mode.

Press to switch on the lamp, and press within 3 seconds for different lighting modes:

White: High - Med - Low - SOS - Off

Press and hold for 3 seconds for Red Lighting,

Press again within 3 seconds for Red Strobe and Off.

One-Press to turn off the lamp if it stays at any mode for over 3 seconds.

Press and hold for 3 seconds for getting White Lighting from Red or Red from White.

The indicator light has many functions.

When the unit is turned "OFF" it will blink a slow and steady red Flash. This is the "locator" function to help you find the unit in pitch black darkness while camping or during a power outage. When the unit is turned "ON" the indicator light will let you know how much battery life you have left. A solid green light is 100% to 75%, a flashing green light is 75% to 40%, a solid red light is 40% to 10% and a flashing red light is 10% or less, time to recharge the unit. The light must be turned "ON" to see how much battery life is. The flashing red locator light cannot be turned off.
